Angled handrail made of white powder-enamelled carbon steel (anti-corrosion primer was used for enamelling). The 350x350 handrail is intended for wall mounting in the bathtub area. The diameter of the tube used in the production is 25 mm, while the wall thickness is 1.5 mm. The maximum load capacity of the railing is 180 kg.

Each handrail comes with a mounting kit (which includes, among others, screws, silicone washers, wall plugs, plugs), as well as a user manual and a warranty card. The offered handrails are certified by the Polish Institute of Hygiene, CE Declaration of Conformity and the National Declaration of Performance.
