

Automatic dryer

- Ripple wire SECURITY heating element
- LONG-LIFE AC Universal Motor
- Automatic on/off switching through infrared sensor
- Safety timer
- Easy wall-mounting without opening the appliance
- 2 possibilities of electrical wiring:
 - direct connection to electrical mains (hardwire)
 - connection with plug (softwire)
- Degree of protection: IP23
- Fixation screws and screw anchors included

Assembly type	Wall-Mounted
Finish	White
ElectroStop system	No
Automatic on/off switching	Yes
Power	1500 W

Handy is a modern, automatic dryer that will be perfect for modern public facilities. Switching on and off is initiated by an infrared sensor, it is a non-contact alternative to standard hotel dryers. Handy dryers have a built-in universal AC motor (alternating current motors). AC motors are collector motors that are mostly used in professional hair dryers. What's more, they have a very long service life thanks to the technique of creating strong air flow and high pressure. The expected average lifetime of the AC collector motor is approx. 2000 hours of operation.
