Concealed shower tap with progressive mixer and ceramic cardrige. The outer part of the faucet is made of brass covered with a shiny chrome layer. In the central part of the body there is a button that starts the flow of water and a lever that regulates the water temperature. The offered valve has a built-in progressive mixer with two G1 / 2 connections for cold and hot water.

A single water flow can last 15-25 seconds (water pressure 3 bar), with a water consumption of approx. 6 l / m. The water connection pressure can be 0.5 - 6 bar, however the recommended connection pressure should be 2-4 bar.

The 5000P tap is certified by the Polish Institute of Hygiene, CE Declaration of Conformity and the National Declaration of Performance.
