Mixer	Thermostatic
Design	Vandal-resistant - chrome plated brass
Water time flow	Adjustable from 15 -25 seconds
Start	By means of the button
Water pressure reductor	up to 6l / min.
Contains	Battery and mounting kit

Wall-mounted shower timer with thermostatic mixer for cold and hot water. Temperature control with the knob below the start button. In addition, the mixer has a built-in element that protects the user against accidental burns. The 5008TN faucet is made of brass covered with a layer of chrome. One time flow of water takes about 15 - 25 seconds.

The amount of water consumed at the outlet is approx. 6 l / m, at a water connection pressure of 3 bar. The connection pressure may be 0.5 - 6 bar, however the recommended connection pressure should be 2-4 bar. A factory mounting kit is included with each 5008TN Series Pillar Battery. What's more, the whole thing is certified by the Polish Institute of Hygiene, CE Declaration of Conformity and the National Declaration of Performance.
