Water time flow	15 seconds \pm 1 second with water pressure 3 bar
Water pressure	Min 1 bar - Max 6 bar
Water pressure reductor	up to 5 l/min
Water temperature	5-65° C

The time battery, adapted for wall mounting with a button, is a product designed for public spaces, such as shopping centers, spas, hospitals, swimming pools and others. The body of the faucet has been extended to 185 mm and, what is important, it was made of brass covered with a chrome layer. In the front part of the chrome body there is a button that starts the water flow. Moreover, the 9003DD faucet has one 1/2 "connection for cold or mixed water. In the case of a faucet with one connection, it is recommended to connect the faucet to an installation equipped with a central mixer.
