- easy to use
- easy to montage

Power	Power 6 V DC
Connectro	3/4
Design	Vandal-resistant- polished stainless steel
Start	Photocell

Flush-mounted electronic flush faucet. The tap has a connection G3/4. The outer casing of the product is made of AISI 304 stainless steel, with a chrome finish. It is worth adding here that the correct operation of the tap is possible only when connected to water free of impurities. An indispensable element for the correct operation of the product is a filter (must be installed by yourself).
