

Disinfectant dispenser drip tray B701H

The dispenser drip tray is made of hard ABS with a streamlined shape.

It fits most dispensers with dimensions and design.

The wide base reliably prevents liquid from spilling onto the floor, even with wide-spray dispensers.

Can be mounted on screws or non-invasively on double-sided tape.

Material	ABS
Montage	Wall-mount (screws or double-sided tape)
Height	130 mm
Width	90 mm top, 130mm bottom
Depth	100 mm
