

Soap dispenser B7002P

Foam soap dispenser made of ABS plastic. White color. A special key is attached to the dispenser, thanks to which we gain access to the inside of the dispenser and thus we can refill the liquid. The dispenser does not require expensive cartridges with disinfectant liquid. We can supplement it from a collective packaging (e.g. from a canister). The large transparent sight glass at the front of the dispenser informs us about the amount of liquid remaining. The container has a capacity of 0.5 L. Dosing takes place after pressing the lower part of the dispenser.

Product Features and Benefits:

- intuitive use of the dispenser
- window for viewing the amount of soap
- rounded shapes
- fits in every bathroom

Capacity	0,5 L
Housing	ABS material
