

Electric valve 9114S

- sensor motherboard made of stainless steel
- automatic flush
- vandal-resistant
- durability and reliability
- made in EU
- easy to use
- easy to montage

Power	Power 6 V DC or 4 x 1,5 AA
Connectro	1/2
Design	Vandal-resistant- stainless steel
Start	Photocell

A flush-mounted electronic battery for urinal sets. The tap has one 1/2 connection for cold or mixed water. The outer casing of the product is made of AISI 304 stainless steel. It is worth adding here that the correct operation of the battery is possible only when connected to water free of impurities. An indispensable element for the correct operation of the product is a filter (must be installed by yourself).

The 9114 valve is available in two supply variants:

- 230V / 6V DC power supply - Product ID 9114SR
- battery, 4 x 1.5 AA alkaline 2700 mAh - Product ID 9114SB
