Includes	6x70mm screws, 8x65mm pins

The 1600mm straight handrail is a product that is a basic mobility aid for disabled people. The offered handrail is made of a pipe with a diameter of 32 mm and a pipe wall thickness of 1.5 mm, made of AISI 304 stainless steel, in two variants as to the finish of the outer coating. The available outer shell finishes are:

- PSM 430 - brushed or matte finish;
- PSP 430 - polished finish.

The PSM 430 / PSP 430 handrails are general-purpose handrails that are most often found in shower or toilet areas. The distance of the 1600 mm handrail from the wall to the center of the tube is 150 mm. In addition, masking rosettes with a snap system are attached to the handrail, which allows the installation of rosettes without the use of mounting glue. Additionally, each type 430 handrail comes with an assembly kit (which includes, among others, screws, washers, wall plugs, plugs), as well as a user manual and a warranty card. The offered handrails are certified by the Polish Institute of Hygiene, CE Declaration of Conformity and the National Declaration of Performance.
