Column shower set made of AISI 316 stainless steel, adapted for outdoor - floor installation. The 9224 shower set has one 1/2" cold or mixed water connection, with a standard water flow time of approximately 30-50 seconds \pm 1 second. The offered external set is equipped with 4 independent shower heads and 4 mechanisms that start the water flow, which means that the set can be used by more than one person at a time.

The built-in flow system has been enriched with a protection that automatically shuts off the water flow after 15 seconds at a pressure of 3 bar.

Products such as the 9224 set are most often used in outdoor gyms or outdoor swimming pools. It is an excellent solution for places in the open air.
