- Flow limiter 8 l/min

Connector	1/2"
Design	AISI 316 stainless steel structure
Water time flow	Standard from 30 to 50 seconds \pm 1 second
Start	By means of the button
Water pressure reductor	up to 8l / min.

Column shower set made of AISI 316 stainless steel, adapted for outdoor-floor installation. The shower set 9231 is equipped with a ceramic mixer. Standard water flow bowls are approximately 30-50 seconds \pm 1 second. The flow system is enriched with a safety device that automatically shuts off the water flow after 15 seconds at a pressure of 3 bar.
