- Easy to clean

Housing	Stainless steel AISI304
Finishing	Matt
Design	Vandal-proof execution
Dimensions	330x400x120 mm
Capacity	16 L
Includes	Mounting kit included

Waste bin with a hinged flap, most often used in small public spaces such as toilet cubicles. The basket is made of moisture and rust resistant AISI 304 stainless steel with a matte finish.

It is worth adding here that the basket structure is solid and vandal-proof. The basket dimensions are 330x400x120 mm. Its capacity is 16 liters. In addition, the C7516S basket housing has hidden hinges. The whole is suitable for wall mounting.
