Design	Vandal-proof execution	
Material	AISI 304	
Lock	the key	
Dimensions	340x595x165 mm	
Capacity	27 L	
Includes	Mounting kit included	

A 27-liter waste bin made of AISI 304 stainless steel is a universal equipment for any public space. Metal baskets are ideal for rooms such as public toilets, toilets at gas stations, mops (Passenger Service Area) or in restaurants.

Each C7527O basket is made of the aforementioned AISI 304 stainless steel, which is characterized by high resistance to vandalism and, importantly, which is highly resistant to moisture, corrosion and rust. The basket cover has a conical opening and is removable. The housing has hidden hinges and a lock that is locked with a key, thanks to which the user cannot open the housing. The total dimensions are: Height: 595 mm Width: 340 mm Depth: 165 mm

In addition, there are two variants of the basket finish:

- C7527OS, mat finish (brushed steel)
- C7527OC, glossy finish
