

Wall mounted hair dryer R307

- The new generation of LONG-LIFE AC UNIVERSAL Motor
- Intelligent airflow technology
- Six-stage airflow / temperature control
- Removable mesh filter
- Concentrator nozzle
- Off / On button
- SECURITY heating element
- Wall bracket with ELECTROSTOP - residual current device 10mA
- Automatic safety switch On / Off

Assembly type	Wall-Mounted
Finish	White
Temperature settings	6 airflow options
ElectroStop system	Yes
Thermostat	Regulated by on / off system
Automatic safety shutdown	Yes
Loudness	59 dB(A)
Power	1200 W

The SILENT JET PROTECT 1200 dryer is a product designed for wall mounting. SILENT JET PROTECT dryers are most often used in swimming pools, hotels, or other facilities with medium intensity. It is worth adding that the offered R307 dryer uses a universal AC motor (alternating current motors). AC Motors are collector motors, which are typically used in real professional hairdryers. They produce a high airflow and pressure and have a very long life. The expected average life of this motor is approx. 2000 hours. Moreover, each SILENT JET PROTECT 1200 dryer has four-fold protection in the form of:

- Auto-reset switch-off thermostat to prevent overheating
- Security on/off "Push" button to prevent unguarded operation
- Automatic on/off safety switch to stop operation when a hairdryer is inserted in the wall holder
- Residual current device in the wall holder (RCD)
