

Wall mounted hair dryer R308

- LONG-LIFE AC Universal Motor
- Smart Airflow Technology
- 6 air flow/temperature settings
- Removable metallic filter
- Concentrator nozzle
- On/Off push button
- Ripple wire SECURITY heating element
- **Wall holder** with ELECTROSTOP - residual current device 10mA
- Automatic On/Off safety switch

Assembly type	Wall-Mounted
Finish	White
Temperature settings	6 airflow options
ElectroStop system	Yes
Thermostat	Regulated by on / off system
Automatic safety shutdown	Yes
Loudness	64 dB(A)
Power	2000 W

The SILENT JET PROTECT 2000 dryer is a product designed for wall mounting. SILENT JET PROTECT dryers are most often used in swimming pools, hotels, or other facilities with medium intensity. It is worth adding that the offered R308 dryer uses a universal AC motor (alternating current motors). AC Motors are collector motors, which are typically used in real professional hairdryers. They produce a high airflow and pressure and have a very long life. The expected average life of this motor is approx. 2000 hours. Moreover, each SILENT JET PROTECT 2000 dryer has four-fold protection in the form of:

- Auto-reset switch-off thermostat to prevent overheating
 - Security on/off "Push" button to prevent unguarded operation
 - Automatic on/off safety switch
- to stop operation when a hairdryer is inserted in the wall holder
- Residual current device in the wall holder (RCD)
