

Wall mounted hair dryer with shaver socket R307SH

- LONG-LIFE DC-Pro Motor
- Smart Airflow Technology
- 6 air flow/temperature settings
- Removable metallic filter
- Concentrator nozzle
- On/Off push button
- Ripple wire SECURITY heating element
- **Wall holder** with ELECTROSTOP - residual current device 10mA
- Shaver socket 110-120V and 220-240V
- Safety isolating transformer
- Automatic On/Off safety switch

Assembly type	Wall-Mounted
Finish	White
Temperature settings	6 airflow options
ElectroStop system	Yes
Thermostat	Regulated by on / off system
Automatic safety shutdown	Yes
Shaver socket	110-120V and 220-240V
Loudness	59 dB(A)
Power	1200 W

The SILENT JET PROTECT 1200 R307SH hairdryer is a product designed for wall mounting and has a shaver socket 110-120V and 220-240V. SILENT JET PROTECT dryers are most often used in swimming pools, hotels, or other facilities with medium intensity. It is worth adding that the R307SH hairdryer use ultralight DC-PRO motor. DC-PRO motors are a new generation of 'direct current' motors. Thanks to the exclusive ventilation technology of VALERA professional hairdryers, DC-PRO motors produce a very high airflow and pressure, very similar to the classic but heavier AC motors. This allows the use of thin professional styling nozzles. The expected average life of this motor is approx. 1200 hours.

Moreover, each R307SH hairdryer has four-fold protection in the form of:

- Auto-reset switch-off thermostat to prevent overheating
- Security on/off "Push" button to prevent unguarded operation
- Automatic on/off safety switch to stop operation when a hairdryer is inserted in the wall holder
- Residual current device in the wall holder (RCD)
