Design	Vandal-proof
Dimensions	95x167x24mm
Capacity	1 pack of hygiene bags
Includes	Mounting kit included, key

Sanitary bag dispenser made of AISI 304 stainless steel. The steel used in the production is highly resistant to corrosion, rust and moisture. This means that the offered feeder can be placed in a room exposed to increased humidity.

The offer includes two variants of the PH2F product:

- PH2FC, variant made of stainless steel with polished coating finish;
  - PH2FS, variant made of stainless steel with a matt coating finish.
- The dimensions of the steel sanitary bag container are 95x167x24mm. The inner surface will hold up to 30 sanitary bags (1 standard pack). What's more, the whole thing is equipped with a solid, steel lock integrated with the surface.
