Maximum capacity	180 kg
Hole diameter	Ø 7 mm
Number of fixing holes:	9
Includes	6x65 mm screws, 8x65 mm plugs

Left angle handrail, "L" type, for the disabled, for general use, made of a 32 mm diameter tube, made of AISI 304 stainless steel. The steel used in the production is highly resistant to corrosion, rust, and some acids. Such properties make each handrail made of AISI 304 steel an ideal solution for rooms exposed to moisture. The presented handrail has dimensions of 600 x 1100 mm, its maximum load capacity is 180 kg, and, importantly, it is available in two finishing options - matt or gloss. The L-type handrails can be used in the washbasin, shower, and toilet areas. In addition, the 134P series handles are equipped with masking rosettes with a snap-in system, which allows the installation of the rosette without the use of mounting glue.

Each handrail 134P comes with an assembly kit (which includes, among others, screws, washers, wall plugs, plugs), as well as a user manual and a warranty card. The offered handrails are certified by the Polish Institute of Hygiene, CE Declaration of Conformity and the National Declaration of Performance.
