Handrails for disabled persons, straight 1600 mm long, general-purpose, made of polished stainless steel tube or matt 32 mm diameter. We use this type of handrail in the washbasin, shower, and toilet area. The distance of the handrail from the wall to the center of the tube is 90 mm. The handles are equipped with masking rosettes with a click system, which allows mounting the masking rosette without the use of mounting glue.
