

Shower curtain rod 90 / 90cm PSP 900

- Two finishing options available: gloss (PSP 901) or mat (PSM 901)
- Adapted to be installed with non-threshold shower trays
- Additionally, a vertical tube strengthens the entire structure
- Made of AISI 304 stainless steel, resistant to corrosion, rust, and some acids
- Can be installed in rooms exposed to moisture
- The mounting kit included masking rosettes with a snap system
- Easy to clean

Material	AISI 304 stainless steel
finish	Gloss (PSP 900) or Mat (PSM 900)
Handrail type	Shower rail with suspension
Handrail length	900x900x500 mm
Tube diameter	Ø 25 mm
The wall thickness :	1,5 mm
Hole diameter	Ø 7 mm
Number of fixing holes:	9
Includes	6x60 mm screws, 10x60 mm plugs

The shower curtain rail is a rust and moisture resistant product, adapted to be installed with non-threshold shower trays in the shower area. The presented bar of the 900 series has been reinforced with an additional, vertical element that strengthens the entire structure.

The bar is made of AISI 304 acid-resistant steel. The surface of the bar can be polished (Product ID PSP 900) or matt (Product ID PSM 900). What's more, the tube used for production has a diameter of 25 mm, and its wall thickness is 1.5 mm. The total dimensions of the steel shower rail are 900 x 900 x 500 mm. In addition, the bar has three fixing points - flanges, which have as many as 3 holes each. The above-mentioned flanges are equipped with masking rosettes with a snap system, which allows the installation of a masking rosette without the use of mounting adhesive.
