Tilting mirror for disabled people in a side frame, made of AISI stainless steel, available in two variants: matt or gloss. The mirror frame has a size of 600 x 600 mm and is made of a steel tube with a diameter of 25 mm and a wall thickness of 1.5 mm. The mirror sheet, on the other hand, has dimensions of 546 x 440 mm, and the thickness of its coating is 120 µ. The presented mirror is designed for wall mounting in the washbasin area. What's more, it is possible to adjust the angle of the mounted mirror, which is an additional convenience for the disabled. An important information is also the fact that the mirrors are supplied with the instruction manual and warranty card. In addition, the offered stainless steel products are certified by the Polish Hygiene Institute, CE Declaration of Conformity and the National Declaration of Performance.
