Self-closing shower set with a fixed spout mounted to the wall. The supply pipe has a diameter of 14 mm and, what is important, the mounting is fitted to wall mounting. The shower set has one 1/2" connection for cold or mixed water, with a standard water flow time of about 30-50 seconds ± 1 second. The flow system is enriched with a safety device that automatically shuts off the water flow after 15 seconds (at a pressure of 3 bar).
