Design	Vandal resistant - chrome-plated brass
Water time flow	Adjustable from 15 seconds \pm 3 second
Start	By means of the button
Water pressure reductor	up to 6l/min.
Spout	Equipped with an aerator

The 8351 tap is made of corrosion-resistant brass covered with a chrome layer. The 8351 faucet has one G3/4 connection. A single water outflow, with the standard setting of the faucet, is about 15 seconds \pm 3 seconds. The connection pressure can range from 0.5 bar - 6 bar, however, the recommended pressure is 2-4 bar. The 8351 tap uses anti-scaling parts with a built-in anti-calc system.
