

Waste bin C7506

- Made of AISI 304 stainless steel
- Two variants: C7506S, brushed steel, C7506C polished steel
- Conical bore
- Removable basket cover
- Resistant to moisture and corrosion
- High resistance to vandalism
- Can be attached to the wall
- Easy to assemble
- Mounting kit included
- Easy to clean

Housing	Stainless steel
Finishing	Matt/ Gloss
Design	Vandal-proof execution
Material	AISI 304
Dimensions	230x270x100 mm
Capacity	5,5 L
Includes	Mounting kit included

A 27-liter waste bin made of AISI 304 stainless steel is universal equipment for any public space. Metal baskets are ideal for rooms such as public toilets, toilets at gas stations, mops (Passenger Service Area) or in restaurants.

Each C7527T basket is made of the aforementioned AISI 304 stainless steel, which is characterized by high resistance to vandalism and, importantly, is highly resistant to moisture, corrosion, and rust. The total dimensions are: Height: 270 mm Width: 230 mm Depth: 100 mm

In addition, there are two variants of the basket finish:

- **C7506S**, mat finish (brushed steel)
- **C7506C**, glossy finish
