Finishing	Matt/ Gloss
Design	Vandal-proof execution
Material	AISI 304
Lock	the key
Dimensions	340x630x260 mm
Capacity	47 L
Includes	Mounting kit included

A 47-liter waste bin made of AISI 304 stainless steel is a universal equipment for any public space. Metal baskets are ideal for rooms such as public toilets, toilets at gas stations, mops (Passenger Service Area) or in restaurants.

Each C75270 basket is made of the aforementioned AISI 304 stainless steel, which is characterized by high resistance to vandalism and, importantly, which is highly resistant to moisture, corrosion and rust. The basket cover has a conical opening and is removable. The housing has hidden hinges and a lock that is locked with a key, thanks to which the user cannot open the housing. The total dimensions are: Height: 630 mm Width: 340 mm Depth: 260 mm

In addition, there are two variants of the basket finish:

- **C75470S**, mat finish (brushed steel)
- **C75470C**, glossy finish
