Polished stainless steel ZZ-fold paper towel dispenser (gloss finish) – model C7102C

The vandal-proof ZZ-fold paper towel dispenser model C7102C, made of high-quality AISI 304 stainless steel, is a professional solution dedicated to public restrooms, commercial facilities, and social areas. Thanks to the use of corrosion-resistant steel, the device withstands moisture perfectly and maintains its aesthetic appearance for years. It is a practical choice for office buildings, medical facilities, and the catering industry. Furthermore, the vandal-proof housing with a lock provides additional security and effectively protects against towel theft.

Polished surface and high capacity

The capacity of **400 to 600 ZZ-type towels** allows for less frequent refills, which improves the maintenance service of public facilities. **Additionally**, a centrally located **viewing window** allows for a quick check of the paper level without opening the housing. The smooth, polished steel surface not only optically enlarges the interior but is also very easy to keep clean.

Security and technical specifications of the C7102C

The C7102C product is equipped with a solid metal lock, which effectively secures the contents against unauthorized access. Optimal dimensions (280x348x102 mm) make the dispenser compact and space-saving, fitting perfectly with [modern fixtures](#). Carefully finished edges of the housing ensure full safety and comfort during daily paper dispensing.

The steel dispenser comes with all documentation required for investment processes, including the **PZH hygienic certificate** and the **National Declaration of Performance (KDW)**. The package includes a factory mounting kit, enabling efficient installation according to current sanitary and building standards. **Our offer also includes a brushed (matte) stainless steel version with the code [C7102S](#).**
