

Toilet paper holder PX32

- Two finish options available: polished (PC32) or matte (PM32).
- Made of AISI 304 stainless steel, resistant to corrosion, rust, and certain acids.
- Suitable for installation in humid environments. Easy to clean and maintain.

Material	AISI 304 stainless steel
Finish	Polished (PC32) / Matte (PM32)
Rail type	Toilet paper holder

The toilet paper holder is a practical and stylish solution for any bathroom. It is made from corrosion-resistant AISI 304 stainless steel, offering long-lasting performance even in demanding environments. The product is available in two finishes: matte or polished. Designed for installation on rails with a diameter of 32mm. The surface features a bacteriostatic coating that helps inhibit bacterial growth and supports hygiene maintenance. Manufactured by Makoinstal, a trusted provider of high-quality sanitary solutions.
